It's in the works, but it hasn't been</p> <p>4 implemented yet?</p> <p>5 <b>A. I'm told it's in the software that's</b></p> <p>6 <b>going to be submitted to the Federal qualification</b></p> <p>7 <b>system as soon as it's ready to accept it.</b></p> <p>8 Q. Do you know who -- that Federal, the</p> <p>9 submission to the Federal qualifier, that's</p> <p>10 something referred to as an Independent Testing</p> <p>11 Authority or an ITA, right?</p> <p>12 <b>A. Yes. And it's all been changed.</b></p> <p>13 Q. The Independent Testing Authority has all</p> <p>14 been changed?</p> <p>15 <b>A. The whole process has been changed.</b></p> <p>16 Q. Who is it that Diebold is submitting</p> <p>17 its software to?</p> <p>18 <b>A. The Federal Elections Assistance</b></p> <p>19 <b>Commission is now running the program and they will</b></p> <p>20 <b>accept the software and farm it out to the ITAs.</b></p> <p>21 <b>That's how I understand it.</b></p> <p>22 Q. Is there a particular ITA that Diebold is</p>	<p style="text-align: right;">176</p> <p>1 page 15 of the Freeman, McGregor report?</p> <p>2 <b>A. No. We have not been budgeted the money</b></p> <p>3 <b>to do that.</b></p> <p>4 Q. You can put that document aside. Okay.</p> <p>5 MR. That's a recommendation that has not</p> <p>10 been implemented, has it?</p> <p>11 <b>A. Partially implemented. And are you aware that the</p> <p>13 AccuVote voting units were a product of Global</p> <p>14 Election Systems prior to the acquisition by</p> <p>15 Diebold?</p> <p>16 <b>A. 182	<p>1 lists nine concerns that she has about the Diebold  2 Election System; isn't that right?  3 <b>A. Yes.</b>  4 Q. And then she makes nine recommendations,  5 doesn't she?  6 <b>A. Yes.</b>  7 Q. So the concerns that Ms. Ellison-Taylor  8 raises were first made known to you in April 2002;  9 isn't that right?  10 <b>A. Yes.</b>  11 Q. And the recommendations that Ms.  12 Ellison-Taylor makes to address those concerns were  13 also first suggested to you in April 2002; isn't  14 that right?  15 <b>A. Apparently.</b>  16 Q. You can put that document aside.  17 Ms. Lamone, I would like to show you a  18 document that's been previously marked as  19 Plaintiff's Exhibit 19. He explained that no system,  22 manual or automated, can be fully secure.</p>

And underneath Administrator's Update  14 there is a subsection called BSC Presentation. Do  15 you see that?  16 <b>A. Yes.</b>  17 Q. What's BSC?  18 <b>A. 186	<p>1 Q. Do you have any reason to dispute that</p> <p>2 Plaintiff's Exhibit 76 is anything other than what</p> <p>3 it purports to be?</p> <p>4 A. No.</p> <p>5 Q. Okay. You can put that document aside.</p> <p>6 Now I would like to show you what's been</p> <p>7 marked as Plaintiff's Exhibit 77.</p> <p>8 (Plaintiff's Exhibit No.</p> <p>9 77 was marked for</p> <p>10 identification.)</p> <p>11 BY MR. The first is, if you look down</p> <p>15 at the third e-mail on Plaintiff's Exhibit 77, the</p> <p>16 one that's dated December 24th, 2003, at 5:39 p.m.</p> <p>17 I'm sorry. I think -- did I have a mix up? Can I</p> <p>18 see that?</p> <p>19 MR. FLORENZO: Let's take a break. Let's</p> <p>20 go off the record.</p> <p>21 THE VIDEOGRAPHER: Off the record:</p> <p>22 1:51:57.</p>	188	<p>1 people who worked with the GEMS server?</p> <p>2 A. I don't believe so.</p> <p>3 Q. Are you aware of any requirement by the</p> <p>4 State of Maryland that its vendors only utilize</p> <p>5 employees who have criminal background checks?</p> <p>6 A. By the State of Maryland?</p> <p>7 Q. Yeah.</p> <p>8 A. I don't know what the State of Maryland</p> <p>9 does.</p> <p>10 Q. Okay. Is there any requirement by the</p> <p>11 State Board of Elections that employees of its</p> <p>12 vendors have criminal background checks?</p> <p>13 MR. DAVIS: Today as opposed to?</p> <p>14 MR. FLORENZO: Let's deal with today</p> <p>15 first.</p> <p>16 A. Today we are requiring them to do</p> <p>17 criminal background checks on all of their</p> <p>18 technicians that are in the state, yes.</p> <p>19 Q. And how long have you been requiring the</p> <p>20 vendors to do that?</p> <p>21 You really can't look to Mr. Davis for</p> <p>22 the answer.</p>
187	<p>1 - - -</p> <p>2 (Recessed at 1:51 p.m.)</p> <p>3 (Reconvened at 1:53 p.m.)</p> <p>4 - - -</p> <p>5 THE VIDEOGRAPHER: On the record:</p> <p>6 1:53:21.</p> <p>7 BY MR. FLORENZO:</p> <p>8 Q. Okay. Ms. Lamone, have you ever seen</p> <p>9 Plaintiff's Exhibit 77 before?</p> <p>10 A. Probably. I know about the issue.</p> <p>11 Q. What is the issue in Plaintiff's Exhibit</p> <p>12 77?</p> <p>13 A. We were requiring people to have criminal</p> <p>14 background checks that had any access to the GEMS</p> <p>15 servers.</p> <p>16 Q. Now, was this a new requirement as of</p> <p>17 January 2004?</p> <p>18 A. It was. Actually, it was in -- we</p> <p>19 initiated it, started looking at this issue in</p> <p>20 October or before, 2003.</p> <p>21 Q. Okay. So prior to October 2003 there was</p> <p>22 no requirement that there be background check of</p>	189	<p>1 A. Oh. It was certainly for this past</p> <p>2 election cycle.</p> <p>3 Q. For this past election cycle?</p> <p>4 A. Yeah.</p> <p>5 Q. Was it for the 2004 Election cycle?</p> <p>6 A. I don't believe so.</p> <p>7 Q. Okay.</p> <p>8 A. Generally the technicians aren't allowed</p> <p>9 to touch the, the run-of-the-mill technicians aren't</p> <p>10 allowed to touch the system other than set the legs</p> <p>11 up or something like that.</p> <p>12 Q. So for example, for Diebold, any of their</p> <p>13 employees or technicians who work in Maryland, on</p> <p>14 the Maryland system, have to have a criminal</p> <p>15 background check?</p> <p>16 A. Yes.</p> <p>17 Q. What about Diebold employees who aren't</p> <p>18 employed in Maryland?</p> <p>19 A. I don't know.</p> <p>20 Q. Does the State Board of Elections have a</p> <p>21 requirement that Diebold employees who do not work</p> <p>22 in Maryland have to have criminal background checks?</p>

<p style="text-align: right;">190</p> <p>1     <b>A. It does not.</b>  2     Q. Okay. You can put Plaintiff's Exhibit 77  3 aside.  4     <b>A. At least I don't think so.</b>  5     Q. Okay. Now I would like to show you a  6 document that's been previously marked as  7 Plaintiff's Exhibit 51.  8         Ms. Lamone, have you seen Plaintiff's  9 Exhibit 51 before.  10    <b>A. It was written for you, you signed off on  16 it?  17    <b>A. Correct.</b>  18    Q. This is a fair and accurate reflection of  19 your thoughts and impressions?  20    <b>A. Yes.</b>  21    Q. As of the date that the document is  22 dated, January 16th, 2004?</p>	<p style="text-align: right;">192</p> <p>1     <b>A. Yes.</b>  2     Q. That's a reference to the SAIC report;  3 correct?  4     <b>A. Correct.</b>  5     Q. Okay. And then in the next sentence in  6 the next paragraph you wrote: In response to the  7 risk assessment report of the Diebold system, the  8 agency developed the State of Maryland Diebold  9 AccuVote-TS Voting System Security Action Plan.  10    <b>A. The State Board of Elections?  17    <b>A. Correct.</b>  18    Q. Okay. Now if you look down in the next  19 paragraph, this is going to be the last full  20 paragraph on the page, you wrote: Several of the  21 tasks in the action plan required Diebold to change  22 its source code for GEMS, the touch screen and</p>
<p style="text-align: right;">191</p> <p>1     <b>A. Correct.</b>  2     Q. This is a memorandum from you to Gilles  3 Burger dated January 16th, 2004, regarding the  4 Diebold voting system; isn't that right?  5     <b>A. Yep.</b>  6     Q. We are going to spend some time on this  7 document, so I just ask for your patience.  8         If you look in the second paragraph, you  9 wrote: In a report dated July 23rd, 2003, entitled  10 Analysis of an Electronic Voting System, the Rubin  11 report, computer scientist from Johns Hopkins  12 University and Rice University stated results of  13 their analysis of source code for a Diebold voting  14 system. And then if you look at the last  20 sentence on the next paragraph, you wrote: Science  21 Application International Corporation, SAIC,  22 performed the analysis. That's changing the source code to three  5 components of the system; right?  6     <b>A. Okay.</b>  7     Q. Diebold did not require the ITA to do a  8 complete end-to-end testing of all components of the  9 source code, only the patches were tested. Do you  10 see that?  11    <b>A. Yes.</b>  12    Q. What did you mean there when you wrote  13 patches?  14    <b>A. The changes for GEMS, the touch screen</b>  15 <b>and encoder to incorporate better security measures.</b>  16    Q. I understand what -- but what are  17 patches?  18    <b>A. They are amendments, for lack of a better</b>  19 <b>term, to the software.</b>  20    Q. Just like the patches that you get on  21 your computer at home every time you would shut down  22 your computer; is that right?</p>

<p style="text-align: right;">194</p> <p>1     <b>A. I assume. I don't know.</b></p> <p>2     Q. Okay. And then if you look down, if you</p> <p>3 skip a sentence, it reads, excuse me, you wrote: As</p> <p>4 a result, the ITA required Diebold to rewrite the</p> <p>5 modified code to meet the Federal Election</p> <p>6 Commission 2002 standards that went into effect in</p> <p>7 2003. Do you see that?</p> <p>8     <b>A. Yes. Sure. That's fine. That's what you</p> <p>13 wrote?</p> <p>14    <b>A. Yeah.</b></p> <p>15    Q. Okay. Now, excuse me, if you turn to the</p> <p>16 next page, up at the top, the first full sentence,</p> <p>17 you wrote: However, the retested GEMS code was not</p> <p>18 received until January 15th, 2004. That's what you</p> <p>19 wrote; right?</p> <p>20    <b>A. Yes.</b></p> <p>21    Q. And then you wrote: And the retested</p> <p>22 touch screen code could not be deployed until the</p>	<p style="text-align: right;">196</p> <p>1 encoder that programs the voter access cards should</p> <p>2 have also been ITA qualified.</p> <p>3     <b>A. Then you wrote: Based upon a review of</p> <p>7 the initial ITA test results, Diebold indicated to</p> <p>8 us that they could not complete the correction until</p> <p>9 mid-March 2004 at the earliest?</p> <p>10    <b>A. Correct.</b></p> <p>11    Q. Then you wrote: Therefore, the ITA has</p> <p>12 indicated that it cannot complete the qualification</p> <p>13 testing in time for the March Primary?</p> <p>14    <b>A. That's what it says.</b></p> <p>15    Q. Okay. And you stand by all those</p> <p>16 statements?</p> <p>17    <b>A. Yes.</b></p> <p>18    Q. Okay. It's true, isn't it, that the</p> <p>19 encoder that was used during the March Primary 2004</p> <p>20 was not qualified by the ITA?</p> <p>21    <b>A. That's my recollection. Did you tell them anything about the</p> <p>10 changes to the encoder?</p> <p>11 <b>A. So it was shortly after April 30th, 2004  7 Plaintiff's Exhibit 82 was created?  8 <b>A. I'm sure.</b>  9 Q. Now I would just like you to go down to  10 the second paragraph, the second sentence. And  11 these are your words. Correct me if I'm wrong.  12 However, as demonstrated by the attached analysis,  13 the Maryland system would meet the criteria for  14 recertification in California due to the  15 improvements and security upgrades that have been or  16 will be made to the system by the General Election  17 in November. Do you see that?  18 <b>A. Yes.</b>  19 Q. Is that an accurate description of what  20 you wrote?  21 <b>A. I'm sure it is.</b>  22 Q. Okay. You can put that document aside.</p>

1 I'd like to show you a document that's  
 2 been marked as Plaintiff's Exhibit 83.  
 3 (Plaintiff's Exhibit No.  
 4 83 was marked for  
 5 identification.)  
 6 BY MR. FLORENZO:  
 7 Q. I would just like to ask you, Ms. Lamone,  
 8 if you have ever seen Plaintiff's Exhibit 83 before?  
 9 A. **I'm sure I have. I apparently signed it.**  
 10 Q. Okay. Let me just ask you about this  
 11 format. We've got a lot of documents that have  
 12 this, sort of this format of a cover to some, it  
 13 looks like voter correspondence, and the cover says  
 14 you've got mail.  
 15 A. **Right.**  
 16 Q. So it sounds, it appears to me, though I  
 17 don't know because I wasn't in your offices, it  
 18 appears to me that there was some sort of a process  
 19 involved in handling voter correspondence when it  
 20 came into the State Board of Elections. Do I  
 21 understand that correctly?  
 22 A. **No.**

207

1 Q. Okay. Could you correct me, please?  
 2 A. **I would be happy to. It's my**  
 3 **understanding that this is the process by which the**  
 4 **Governor's office or at least the last Governor,**  
 5 **tracked mail to the Governor that was farmed out to**  
 6 **the agencies to respond to. And we would either be**  
 7 **instructed to respond with a letter for the**  
 8 **Governor's signature, and there was a certain format**  
 9 **for doing that, or as evidenced in this one, the**  
 10 **Governor's office must have sent it over and asked**  
 11 **us to respond directly to the incoming letter to the**  
 12 **Governor.**  
 13 Q. So if I see the you've got mail cover,  
 14 that means it came from Governor Ehrlich's office.  
 15 A. **Correct. And probably most of the**  
 16 **letters that were written in response on the topic**  
 17 **would have been exactly the same.**  
 18 Q. Sure. Sure. All right.  
 19 If you could turn to the third page, you  
 20 can see that's a letter from you to someone named  
 21 Gladys Connor. Do you see that?  
 22 A. **Yes.**

208

1 Q. And that's a letter dated October 5th,  
 2 2004; correct?  
 3 A. **Correct.**  
 4 Q. That's shortly before the 2004  
 5 Presidential Election; right? Is that right?  
 6 A. **Yes.**  
 7 Q. Okay. If you could look -- is -- is  
 8 the -- she will call back.  
 9 Is this letter, dated October 5th,  
 10 2004 --

 12 MS. MARTIN: Yes.  
 13 THE WITNESS: I'm sorry. You got cut  
 14 off.  
 15 Q. Is this letter dated October 5th, 2004,  
 16 the last page of Plaintiff's Exhibit 83, a fair and  
 17 accurate representation of your thoughts and  
 18 impressions at the time that the letter was sent  
 19 out?  
 20 A. **I assume it is.**  
 21 Q. Okay. If you could look at the third  
 22 paragraph and if you could just read that first

209

1 sentence to me, please?  
 2 A. **While no election system, voting or**  
 3 **otherwise, is without risk, these risks can be**  
 4 **mitigated so that the system can be trusted.**  
 5 Q. Doesn't that actually say while no  
 6 electronic system?  
 7 A. **I'm sorry. Yes.**  
 8 Q. What it reads is, while no electronic  
 9 system, voting or otherwise, is without risk, these  
 10 risks can be mitigated so that the system can be  
 11 trusted. Do you see that?  
 12 A. **Yes.**  
 13 Q. So, do you still believe that today?  
 14 A. **Yes.**  
 15 Q. You can put that the document aside.  
 16 I would like to show you a document

And isn't it true that --  12 THE WITNESS: Shelly, you keep hanging up  13 on us.  14 MS. MARTIN: You need to talk about  15 something more interesting.  16 THE WITNESS: Okay.  17 BY MR. I believe you're right.  22 Q. Okay. Now the software on the</p>	<p style="text-align: right;">216</p> <p>1 that an ITA qualifies a software program under?  2 A. A very high level. To take you back a  3 little bit --  4 Q. Sure.  5 A. Back in the '80's there was nothing. And  6 the vendors were not accountable to anything. And  7 the National Association of State Election  8 Directors, of which I'm a member, not then, but I am  9 now, convinced the Federal Elections Commission to  10 institute a program of testing and developing  11 standards. So I believe they started in the late  12 '80's. In 1992 they finally came up with a set of  13 standards that the systems had to meet. And NASED,  14 The National Association of State Election  15 Directors, instituted the program of qualifying the  16 ITAs and having the vendor submit their software and  17 their hardware to those qualifying or the ITA  18 entities.  19 The standards weren't rewritten or  20 anything happened to them at all until new ones were  21 finally adopted in 2002, but it remained a NASED-run  22 system where NASED selected the, and we didn't have</p>
<p style="text-align: right;">215</p> <p>1 AccuVote-TS voting units, at the time that Maryland  2 contracted with Diebold back in 2001, was the  3 software on the AccuVote-TS that was going to be  4 used in Maryland qualified by an ITA at that time?  5 A. I believe it was.  6 Q. Okay. We know that in the fall of 2003  7 and in the early part of 2004 there were some  8 changes made by Diebold to the source code for the  9 GEMS server, the touch screen and the encoder that  10 required another qualification by Ciber  11 Technologies; is that right?  12 A. Yes. I believe so.  13 Q. Other than that one instance of  14 certification by Ciber Technologies in the fall of  15 2003, winter of 2004, had there been any other  16 instances in which the software used in the  17 AccuVote-TS units in Maryland was qualified by an  18 ITA?  19 A. I only remember the one because it had so  20 much discussion around it. That's a Joe Torre  21 question.  22 Q. Do you know at a high level what it is</p>	<p style="text-align: right;">217</p> <p>1 a whole bevy of labs that wanted to do this, because  2 there wasn't much money in it. We selected the labs  3 through, we had an independent board that did that,  4 and the systems were being tested to whatever  5 standards were in existence.  6 Q. When an ITA determines that a software is  7 qualified, what that means is that that software  8 meets the NASED guidelines; is that correct?  9 A. Well, it meets the standards which were  10 first adopted by the Federal Elections Commission  11 and when the Election Assistance Commission came  12 into existence, it transferred over to them.  13 And the process is, as I understand it,  14 is the stuff goes to the lab, the appropriate lab,  15 and a report is written, and it's then given to a,  16 one or more reviewers, like Mr. Craft or Mr.  17 Freeman, and -- or Mr. Williams I think has been a  18 reviewer. They go over the report and critique it  19 and say, yea or nay on the whole thing or parts of  20 it -- and it's my understanding that there have been  21 numerous instances where the reviewer has rejected  22 or denied recommending qualification and made a</p>
